

[H0253]
3-Way 1/4" FNPT Trim Valve

The **H0253**, 3-way trim valve is suitable for use in regular (175 psi) and high pressure (300 psi) sprinkler systems. This item features three (3) 1/4" (DN 8) Female NPT connections points; one inlet and two outlets. A cast arrow on the body indicates direction of flow. Outlets do not act independently of each other and will both flow once the stem is raised.

Dimensions:

A: 2-1/2" (63 mm)
B: 1-11/16" (43 mm)
