

[IE141 RED BRASS]

IE141 Red Swing Rack - 1.5" x 100' Rack Hose w/ Brass Couplings and Brass Nozzle

Description:

Wilson and Cousins' UL/ULC Listed and FM Approved IE141 RED BRASS, red semi-automatic swing rack assembly. This item is acceptable for Class II Service and acts as a readily available, immediate means of controlling and suppressing fire by an individual. The swing-able pin rack features an automatic release mechanism that prevents water from flowing through the hose when the valve is opened until the last fold has fallen off the rack, ensuring ease of use and proper functionality.

Standard rack assembly is equipped with IE141 model hose rack, 100' of 1.5" rack hose, finished with brass couplings, a brass nozzle, a 1.5" x 3" (38mm x 76mm) steel nipple, and a locknut

Finish:

Red

Optional Finish:

Chrome Rack and Chromed Cast Brass Couplings/Nozzle

Available Hose Threads:

NPSH, NST

Listed:

DIMENSIONS:
